SUMMARY

Finance graduate with hands-on experience in retail financial analysis, multi-location revenue tracking, and reporting across POS and vendor data. Skilled at compiling data from multiple sources, building Excel-based financial models, and translating findings into recommendations for leadership. Comfortable working across sales, margin, and operational data in a fast-paced environment.

EDUCATION

Baruch College / CUNY, Zicklin School of Business — BBA in Finance & Investment **Aug 2022 – May 2025**

Relevant Coursework: Advanced Corporate Finance, Managerial & Financial Accounting, Investment Analysis, Statistical Analysis of Economics & Finance

LaGuardia Community College — A.S. in Business Administration **Aug 2020 – June 2022**

EXPERIENCE

Tealicious — Operations Manager **Dec 2025 – Present**

- Analyze POS transaction data across multiple retail and campus locations to track sales, margins, and channel performance
- Build and maintain Excel PivotTable reports and dashboards summarizing revenue, expenses, and trends for leadership
- Investigate discrepancies between reported and actual figures; reconcile with vendors and suppliers
- Compile data from POS, inventory, and vendor systems to prepare consolidated reports for decision-making
- Identify trends and anomalies in sales and margin data across product categories and locations
- Manage multiple priorities across locations in a fast-paced retail environment

Golden Batch — Wholesale Food Business — Founder **Sept 2025 – April 2026**

- Ran a wholesale consumer goods business end to end, tracking revenue, expenses, and margins across channels
- Built and maintained financial models for revenue, expenses, and cash flow to guide pricing and business decisions
- Managed accounts receivable and analyzed channel-level performance to identify growth opportunities
- Leveraged AI tools to research local shops and identify potential wholesale clients for outreach

Extern.com — Venture Capital Externship **Feb 2024 – Mar 2024**

- Conducted due diligence on 10+ early-stage consumer companies, evaluating revenue models and growth potential
- Prepared structured investment briefs translating analysis into clear recommendations for stakeholder review

CUNY Communications & Marketing — Marketing Intern **Jul 2022 – Sept 2022**

- Audited and maintained data across 25 CUNY colleges to improve reporting accuracy
- Prepared materials and presentations to support outreach across campuses

FINANCIAL ANALYSIS & PROJECTS

Equity Valuation Project — Mondelez International **Apr 2025**

- Analyzed financial statements and SEC filings (10-K, 10-Q) to assess profitability, leverage, and liquidity
- Ran peer and ratio analysis to benchmark performance and identify key drivers of financial results
- Built valuation model in Excel to evaluate the consumer goods company against industry competitors

Queens Multifamily Development Model — Independent Project **Aug 2025**

- Built a multi-year financial model projecting income, expenses, and cash flow for a 50-unit development
- Modeled operating budget, capital planning, and multi-year expense projections

LEADERSHIP EXPERIENCE

Baruch Private Equity Club — Analyst Program **Oct 2023 – May 2025**

- Built DCF and LBO models in Excel to evaluate investment opportunities and assess capital structure
- Performed ratio analysis, IRR, NPV, and scenario modeling to support investment decisions
